

# Mosaici Anticati Mix

 **FOREDIL**

italian style, natural solution

**Mosaici Anticati Mix** è il catalogo Foredil che raccoglie tutte le miscele anticate presenti nella nostra collezione. Grazie alla loro finitura anticata, che dona agli ambienti un'atmosfera calda e accogliente, questi mix si adattano a qualsiasi contesto, come cucine, bagni, piscine e wellness center. Tutti i mix sono personalizzabili sia negli abbinamenti di colore/vetro, che nel formato: è inoltre possibile realizzarli con superficie già trattata con idrorepellenti appositi.

**Mosaici Anticati Mix** is the Foredil catalogue, that collects all tumbled mixtures presented in our collection. Thanks to their tumbled finishing, which gives the rooms a warm and cosy atmosphere, these mixes can be adapted to any context, such as kitchens, bathrooms, swimming pools and wellness centers. All mixes can be personalized in colour / glass and measure: it is also possible order them sealed with an appropriate water-repellent.

**Mosaici Anticati Mix** est le catalogue de Foredil, qui recueille les mélanges antiques présents dans notre collection. Avec leur finition antiquée, qui donne une atmosphère chaude et confortable aux environnements, ces mélanges peuvent être adaptés à tout contexte, comme les cuisines, salles de bains, piscines et un centre de bien-être. Tous les mix peuvent être personnalisés dans les couleurs / verre et dans le format: Vous pouvez aussi les commander déjà traités avec un hydrofuge approprié.

**Mosaici Anticati Mix** ist der Foredil Katalog, der alle antike Mischungen aus unserer Kollektion präsentiert. Mit ihrer antike Oberfläche, das eine warme und einladende Umgebung gibt, können diese Mischungen in jedem Kontext angepasst werden, wie Küchen, Bäder, Schwimmbäder und Wellness-Center. Es ist möglich alle Mix vom Katalog in Farbe/Glas und Format zu personalisieren: alle Produkte sind sowohl natur als behandelte Oberfläche, mit Wasser abweisende Ausführung, lieferbar.

**Attenzione:** I marmi, per le loro caratteristiche naturali, possono presentare variazioni di tono, peso, colore, struttura e venatura. Le misure possono variare +/- 1 mm. Le percentuali dei mix possono leggermente variare, trattandosi di una lavorazione artigianale con posa casuale. Tutti i prodotti sono presentati con il nostro trattamento COLOR, ma se non specificato nell'ordine il materiale verrà sedito con superficie naturale.

**Attention:** Marbles, because of their natural characteristics, may vary in hue, colour, structure and veining. Sizes may vary by +/- 1 mm. The percentages of mix can slightly vary, since they are hand-crafted with casual laying. All the products are presented with our treatment COLOR, but if not specified in the order, they will be produced with natural surface.

**Attention:** Etant donné leurs caractéristiques naturelles les marbres peuvent présenter des variations de ton, poids, couleurs, structure et veines. Les mesures peuvent varier +/- 1 mm. Les pourcentages des mélanges peuvent varier légèrement, puisque il s'agit d'une production artisanale avec pose casuelle. Tous les produits sont présentés avec notre traitement COLOR, mais s'il n'est pas spécifié dans la commande, on Vous livrera le matériel avec surface naturelle.

**Achtung:** Aufgrund ihrer natürlichen Eigenschaften können die Marmors Farbton, Struktur- und Maserungsabweichungen aufweisen. Masse Materialien mit Toleranz +/- 1 mm. Die Anteile den Mischungen können leicht variieren, da es eine handwerkliche Verarbeitung mit zufälliger Verlegung ist. Alle Produkte sind mit unserer Behandlung COLOR präsentiert, aber wenn es in der Bestellung nicht angegeben ist, wird das Material mit natürlicher Oberfläche geliefert.

## Spessore 0,75 cm

I VANTAGGI DELLO SPESSORE DI 0,75 CM / THE ADVANTAGES OF THE THICKNESS 0.75 CM / DIE VORTEILE DER STÄRKE 0,75 CM / LES AVANTAGES DE L'ÉPAISSEUR DE 0,75 CM

Lo spessore 0,75 cm dei nostri mosaici permette la posa con angoli di curvatura molto elevati mantenendo lo spazio delle fughe più strette e di conseguenza esteticamente più eleganti, rispetto al tradizionale spessore 1 cm. Adatto per navi da crociera e strutture che richiedono poco peso, si presta alla posa in posizioni particolari, come archi, colonne e soffitti.

The 0.75 cm thickness of our mosaics allows laying with extremely high angles of curvature while still maintaining narrower spaces between tiles, thereby guaranteeing a more aesthetically elegant result compared to the traditional 1 cm thickness. Suitable for cruise ships and structures requiring reduced weights, it is suitable for laying in particular positions such as on arches, columns and ceilings.

L'épaisseur de 0,75 cm de nos mosaïques permet la pose avec des angles de courbe très prononcés en limitant l'espace des joints et en créant par conséquent des solutions esthétiquement plus élégantes que l'épaisseur traditionnelle de 1 cm. Particulièrement indiquée pour les bateaux de croisière et aux structures exigeant un faible poids, elles se prêtent à la pose dans des endroits particuliers, comme les arcs, les colonnes et les plafonds.

Die Stärke von 0,75 cm unserer Mosaik erlaubt die Verlegungen von wesentlich größeren Kurvenwinkeln, unter Beibehaltung engerer Fugenzwischenräumen mit der Konsequenz einer eleganteren Ästhetik, bezüglich der traditionellen Stärke von 1 cm.

Geeignet für Kreuzfahrtschiffe und Strukturen, die ein geringes Gewicht erfordern. Für die Verlegung in besonderen Positionen, wie Bögen, Säulen und Decken.
